

Frictionless Payments with the Auto-Debit System[®]

The Auto-Debit System is used to apply the Cash Practice Retention Principle of Frictionless Payments. Make one-time, recurring, and online payments a breeze, store digital signatures on file, and even split payments among several family members!

The #1 Platform for Increasing Patient Loyalty

“The Auto-Debit System, the care plans, and everything that Cash Practice has to offer allows our office to function much more smoothly, serve a higher volume of people, and it is essentially like having another CA in your office. It’s also allowed our CAs to be more focused on the day to day interactions with our practice members, to create the atmosphere that we’re looking for in our office. I would absolutely recommend using Cash Practice.”

-Dr. Marc Gottlieb

Why is the Auto-Debit System[®] a must for Frictionless Payments?

1 The #1 cause of patients dropping care? Money. Reduce awkward financial conversations and increase retention while automating all payments.

4 Interested in collecting payments virtually? Have patients pay you from the comfort of their homes with our Online Forms via email or your website.

2 Save 40+ hours a month *and* free up the front desk by saving credit cards on file while automatically emailing receipts.

5 Merchant accounts are month-to-month with no early termination fees or contracts. Our rates are very competitive and our in-house team is dedicated to giving you a payment processing service that you can trust.

3 Increase cyber safety and compliance in the practice. Keep multiple cards and bank accounts for each patient compliantly on file. You’ll have peace of mind knowing that your patients’ data is always protected.
