

Forecasting Care with the Care Plan Calculator[®]

YES!

The Care Plan Calculator is used to apply the Cash Practice Retention Principle of Forecasting Care. By Forecasting Care, you make it easy for your patient to commit to and complete your comprehensive treatment plan whether they have insurance or not.

The #1 Platform for Increasing Patient Loyalty

"Before Cash Practice we gave individual plans, there was no such thing as a family plan. But with a clear blueprint that Cash Practice provides, it's a plug and play type of system. It's made my life so much easier and it's made my practice a lot more profitable. An individual can look for a plan for themselves or also see what it would take to get their kids under care. With that plan up and placed, there is no guesswork."

-Dr. Jason Day

Why is the Care Plan Calculator[®] a must for Forecasting Care?

- 1** Patient loyalty increases when offering compliant and affordable monthly payment options, making it easy for patients to enroll and stay in care.
- 2** When enrolled in custom plans, the likelihood of patients dropping care reduces. They trust that you're giving them the best care with the best options for them, which increases patient loyalty.
- 3** Build 100% cash plans or blend them with insurance and outline what's covered and not covered. The Care Plan Calculator will handle all discounts for non-covered services compliantly.

- 4** Save 10+ hours a month from doing manual work, increase efficiency, and streamline the flow at the front desk. Put your focus on patient care and not on creating more work for you!
- 5** Customize plans for individual patients as well as for families. Choose an existing template or create your own to start enrolling patients into care immediately.

Our Features

- Integrates with ChiroHealthUSA
- Include both insured and non-insured services
- Auto-Debit directly from the care plan

- Compliant and legal discounts and terms
- Automatically split payments among family members
- Helps satisfy the No Surprises Act Good Faith Estimate

No matter what type of practice you have... There's a care plan for you!

Terms of Agreement

Acknowledgement of Discount Fees: Client acknowledges that these fees are discounted and not CPIs usual & customary fees. As such, client understands that these fees will only be offered for as long as client is directly paying CPI for the services and no third party insurance is being billed by CPI. If client wishes to submit receipts directly to an insurance carrier, said receipts will reflect cash fees only.

Visits Covered by Insurance: A portion of the care provided under this agreement may be covered by client's health insurance. Client understands that payments paid are applied to any deductible, copays and/or included care not covered by insurance. Client further understands that if their health insurance benefits should change, that CPI reserves the right to change this plan.

Additional Visits Provided During Plan: Additional visits during the term of this agreement may be purchased at the rates defined on page 1 of this agreement.

Not Covered Under Program: This arrangement does not include massage services, products, or after-hours emergency care.

Early Termination of Care: Client understands that if they cancel care prior to the end of the term, clients account balance will be prorated based upon the Pay Per Visit Fee (listed on page 1) for all services provided. If client requests early termination less than five weekdays days prior to next monthly payment due date, and a balance is due, said monthly payment will still be drawn on due date. Any overpayment will be refunded within ten business days.
